Python Library for Linguistic Typology

Michael Voronov

HSE

2019

Introduction

Problem:

- ▶ No Python tools for online linguistic databases queries.
- ▶ No Python tools for linguistic interactive mapping.

What exists?

- ▶ R package **lingtypology** that does both.

Why Python?

- ▶ De-facto standard language among linguists.
- ▶ A lot of scientific lebraries (Pandas, SciPy etc.)
- ▶ Relatively high speed.
